

HAVE YOUR SAY ABOUT PROPOSED NEW NATIONAL QUALIFICATIONS IN VISUAL ARTS, CRAFTS AND CERAMICS

The national Industry Skills Council for the cultural sectors (IBSA) is developing new Diploma and Advanced Diploma qualifications in Visual Arts, Crafts and Ceramics.

FutureNow is hosting short workshops to give West Australian practitioners and educators the chance to discuss these new qualifications - what they should include and what issues need to be considered:

- *Skills for sustaining professional practice*
- *Opening opportunities for new and different forms of practice*
- *Capturing the impact of new media*
- *Integrating higher level technical and conceptual skills*
- *Maximising pathways to higher education*

Come and share your views. We would love to see you.
